Kitchen & Tabletop

Confetti Cups by High Gloss

Product Details:

5 SKU's

Size: 3 x 3 x 4 in

Material: glazed ceramic

MOQ: 4

Inner Carton: 4

Master Carton: 16

@fromhighgloss / Followers: 11k

High Gloss comes from a place of process and purpose. The work balances thoughtful proportions with a graphic sensibility that results in a collection of artful objects. The studio was founded in 2013 by Natalie Herrera, and has recently relocated to Upstate New York.

Accessories

Everybody & Pattern Umbrella by Dusen Dusen

Product Details:

2 SKUs

Size: 21" diameter (opened)

Material: metal, plastic, nylon

MOQ: 4

Inner Carton: 4 Master Carton: 24

@dusendusen / 194k followers

Ellen Van Dusen launched Dusen Dusen in 2010, a womenswear line known for its bold, original prints on versatile, wearable silhouettes. In 2015, the brand expanded into textile and home goods, inspired by fine art, commercial and naïve design, and the brain's reaction to color and contrast.

Everybody Umbrella

Pattern Umbrella

Planters & Plant Accessories

Planter Pots by Simone Brewster

Spring Things

Spring 2022 Collection

Spring Things

We're looking forward to brighter days, so for our Spring 2022 collection, we're leaning into the sense of lightness and optimism that spring brings with it. Through color, pattern, and playful forms, this collection ushers spring-like happiness into your home and other favorite spaces. We're expanding on Areaware classics, like everyone's most beloved Pig, and adding some fresh designs from Areaware favorites, Dusen Dusen, Chen & Kai, and Josh Owen—just to name a few. With spring also comes a few exciting new names to our designer lineup that really make it bloom. With this collection, we hope to remember that the future is full of possibility—plus floral patterns, happy reflections, and more chubby candles. Always more chubby candles.

Serving Friends

designed by Selena Liu

Whoever said food isn't to be played with hasn't met Serving Friends. These wooden spoons, carved into charming shapes, bring joy and humor to your dining table. No matter what you're serving, they'll always be there to serve up smiles.

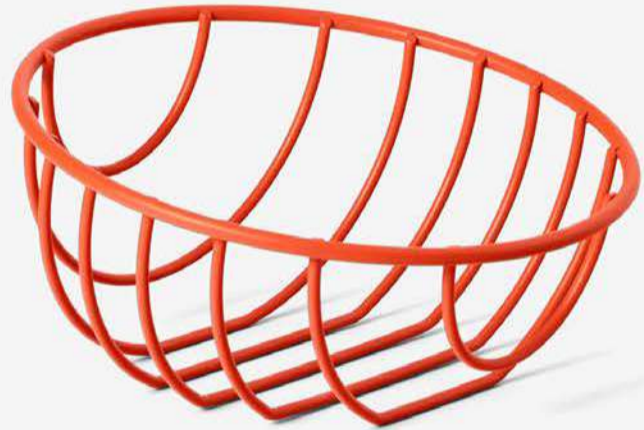

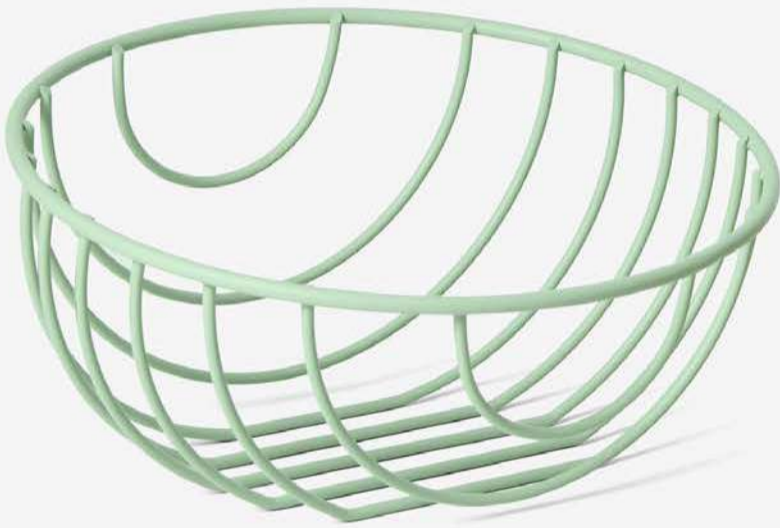

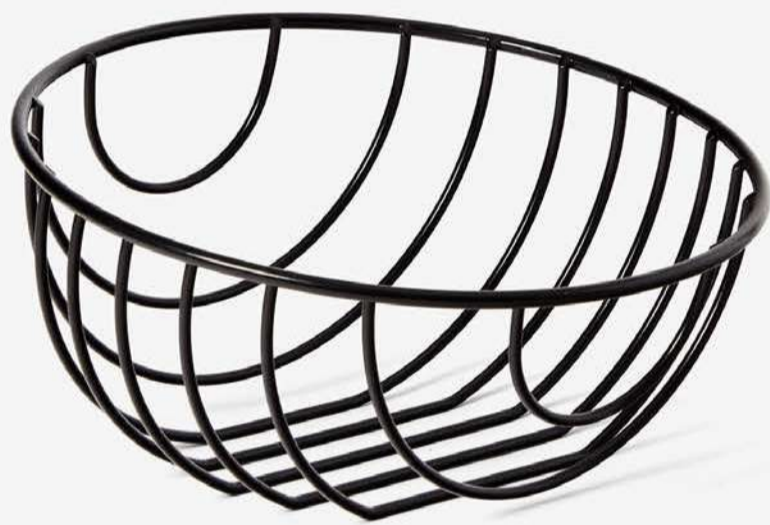

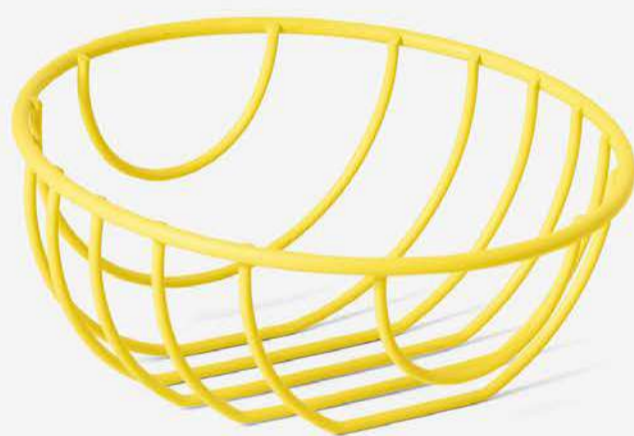

Outline Baskets

designed by Henry Julier

Wire baskets made with minimal materials to keep your fruits and veggies fresh. Their bold and graphic design will keep your countertops looking fresh, too (bonus!). Combine with other Outline Baskets to make a complete set.

Pattern Glasses

designed by Dusen Dusen

Dusen Dusen is known for their bold original textiles to both wear and live among. Each collection is developed and inspired by fine art, commercial and naïve design, as well as the brain's reaction to color, movement, and contrast. Pattern Glasses place these designs onto everyday tumblers that are sure to brighten your mood.

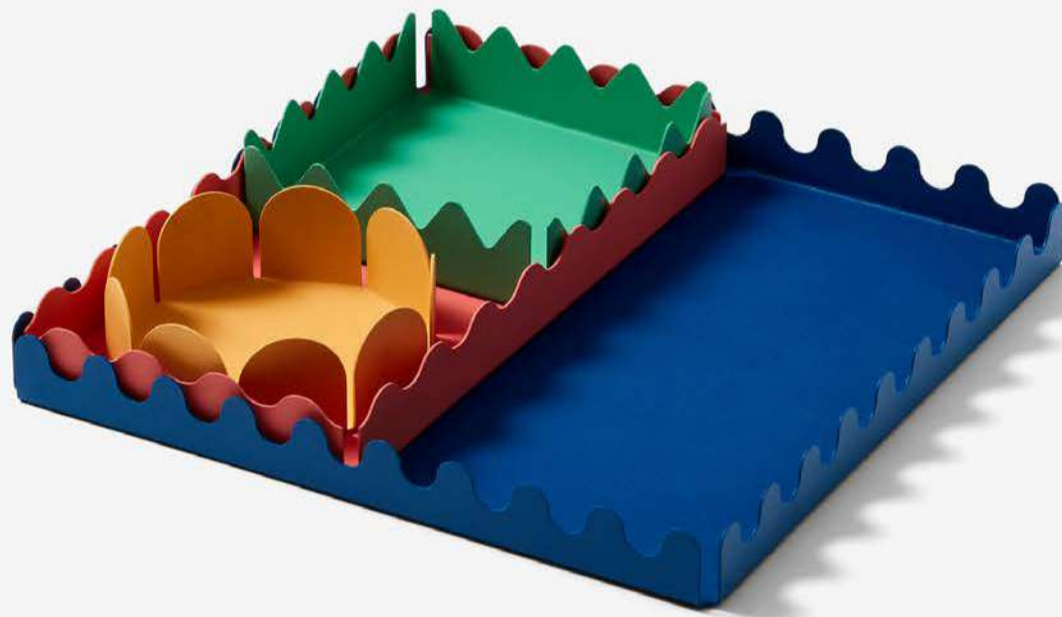

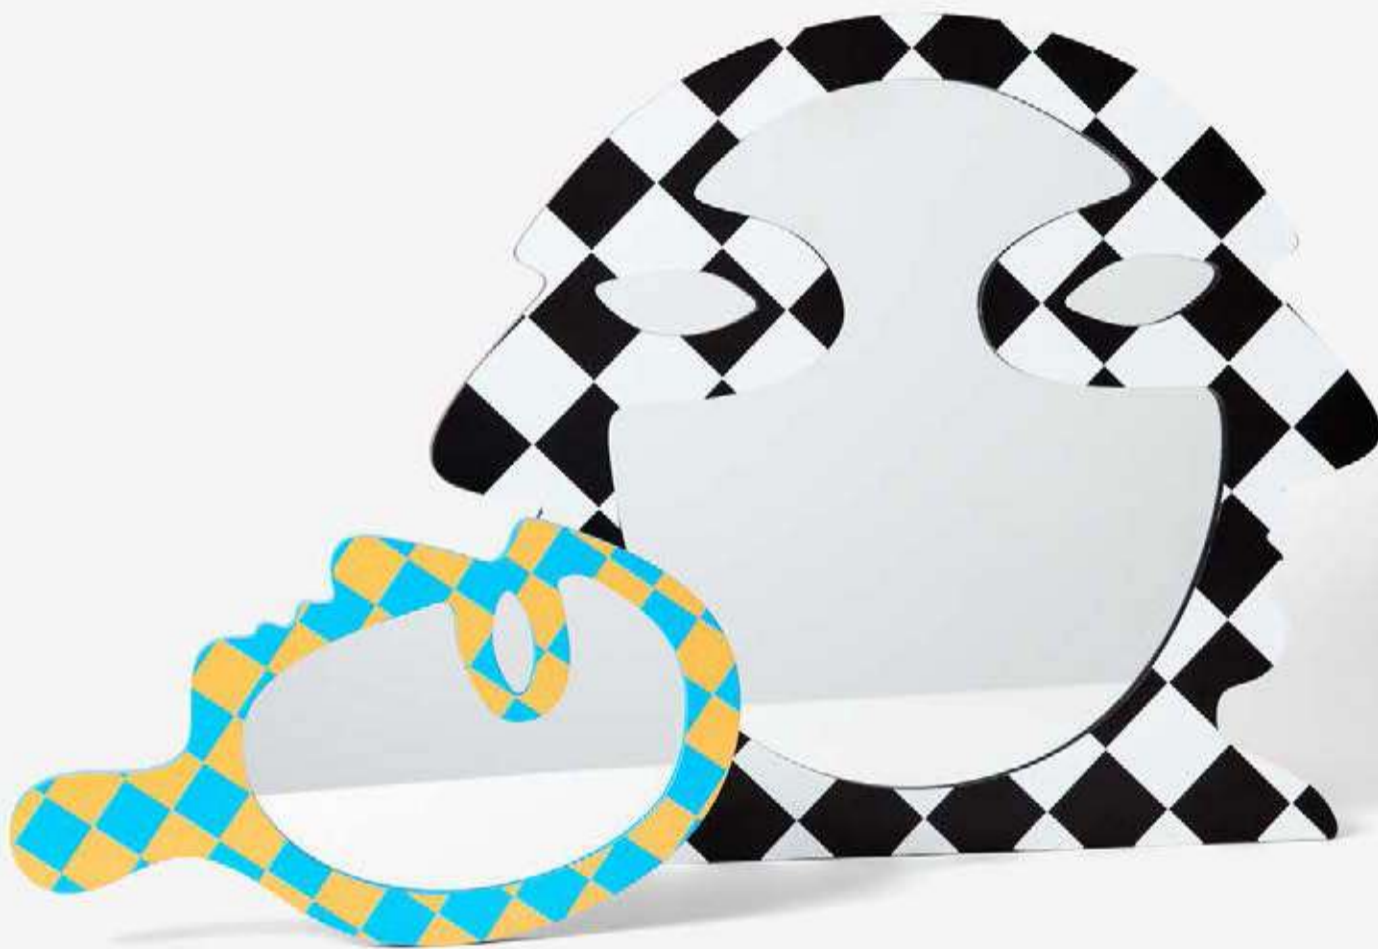

Scape Trays

designed by Steven Bukowski

A set of trays made up of abstract lines and shapes that depict familiar landscapes of the outdoors. Like little habitats, they offer a home for your small belongings to live in. Nest them together when not in use.

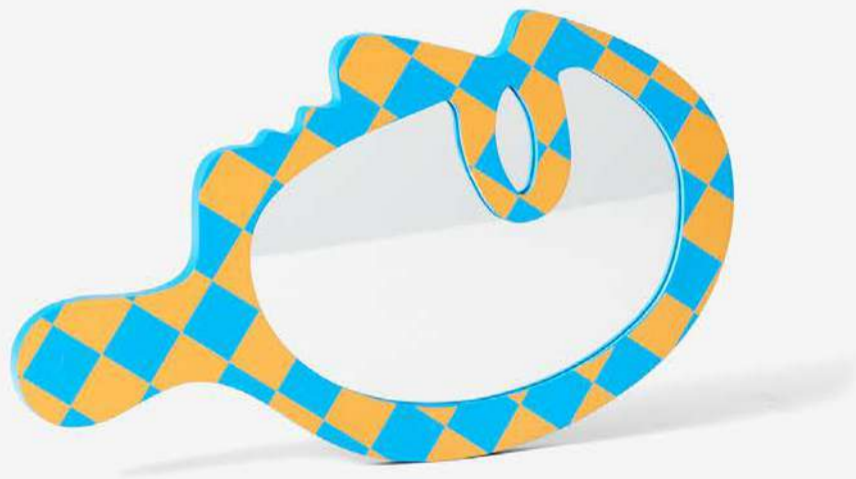

Profile Mirrors

designed by LikeMindedObjects

People say I'm really good at self-reflection. I'm colorful, playful, and stand out in a room. Sometimes I'm brutally honest but will always see the best side of you.

Hex Vases

designed by BZIPPY

A geometric vase inspired by Brutalist design, featuring stacked hexagonal shapes from Los Angeles-based ceramic design studio, BZIPPY. This piece mirrors notable elements of the designer's signature Hex planter series, adapted for the glass production of this collection of vases. The Hex Vase is the first BZIPPY design in glass, working exclusively without ceramic materials.

Iron Trays

designed by Josh Owen

An iron tray for holding anything from candles to key rings. Its curved edge creates the illusion that it is floating just above the surface it's placed upon. The edge also makes it easy to grasp and pick up. An extension of the Josh Owen collection.

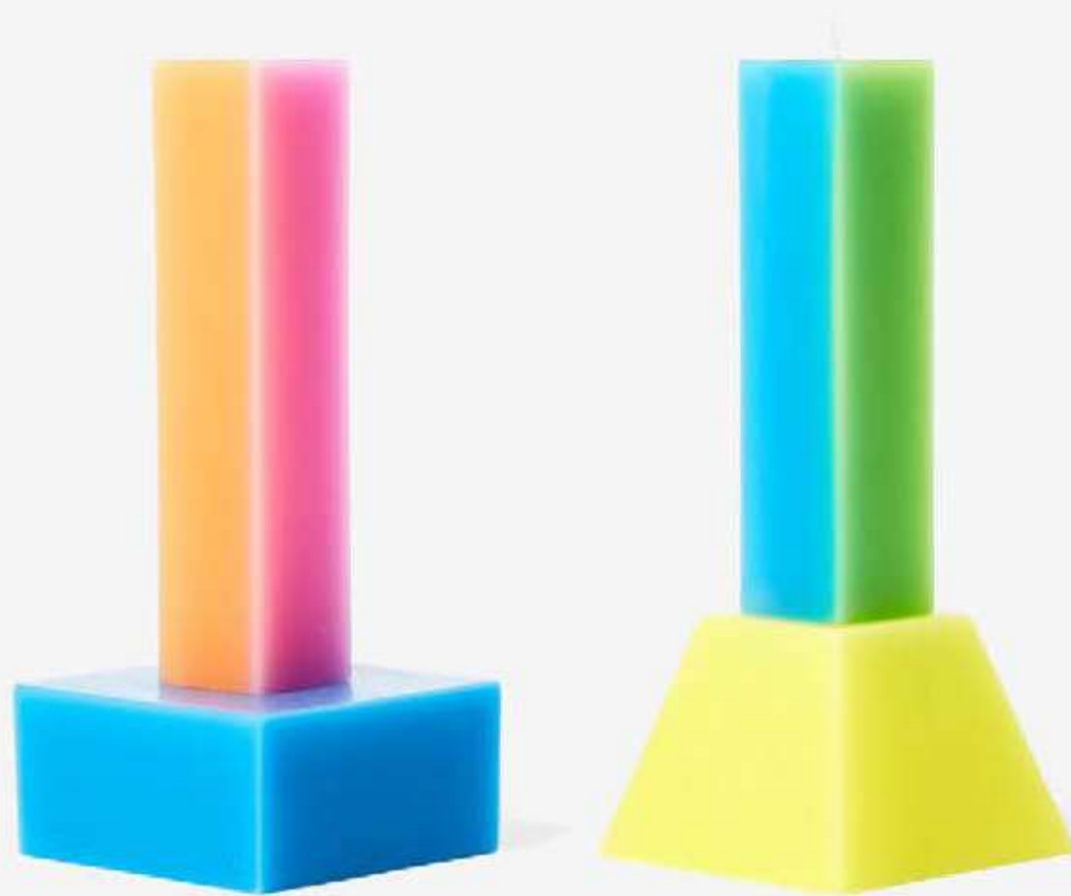

Iron Catchall

designed by Josh Owen

An iron catchall for holding anything from candles to key rings. Its curved edge creates the illusion that it is floating just above the surface it's placed upon. The edge also makes it easy to grasp and pick up. An extension of the Josh Owen collection.

Happiness Candles

designed by Yinka Ilori

This candle is adapted from designer Yinka Ilori's chair series, *Types of Happiness*. Each chair in the series tells a story of the sixteen different types of happiness. These stories continue through the pillar candles by replicating the colors used on the chair legs, each of which evoke a type of happy feeling.

Goober Minis

designed by Talbot & Yoon

The next generation of Goobers is here. Akin to their parentals, each baby Goober boasts its own playful shape and distinct personality, just in miniature form. Their littleness is so endearing, you may find yourself calling them by name: Ba, Ma, La, and Da. Like a lil' rascal, do not leave a lit candle unattended.

Poketo Playing Cards

designed by Poketo

Play your most artful game with this set of playing cards designed by Poketo. Each deck is suited up in vibrant colors and shapes, so no matter your hand, you'll be holding all the aces. Deal us in! Includes two decks of playing cards.

Stacking Planter Mini Tall

designed by Chen & Kai

The Stacking Planter discretely integrates both a planter and saucer into one form. Lift out the bottom ring to reveal a hidden saucer. The circular stoneware form takes its inspiration from high voltage ceramic insulators found on power lines.

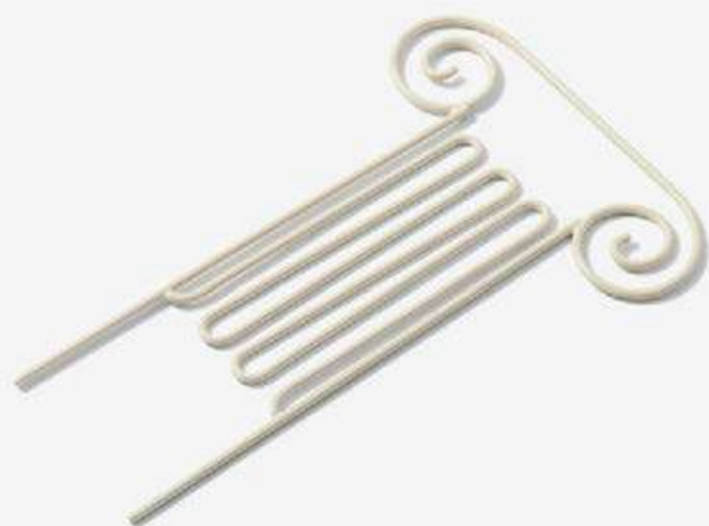

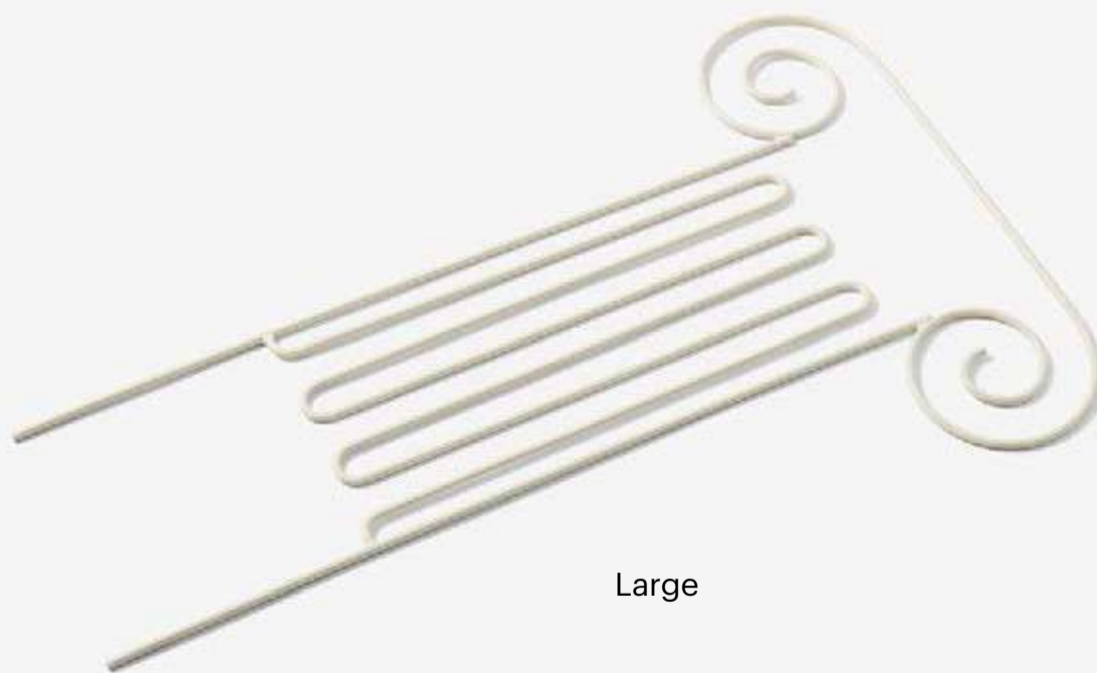

Plant Trellis

designed by Chen & Kai

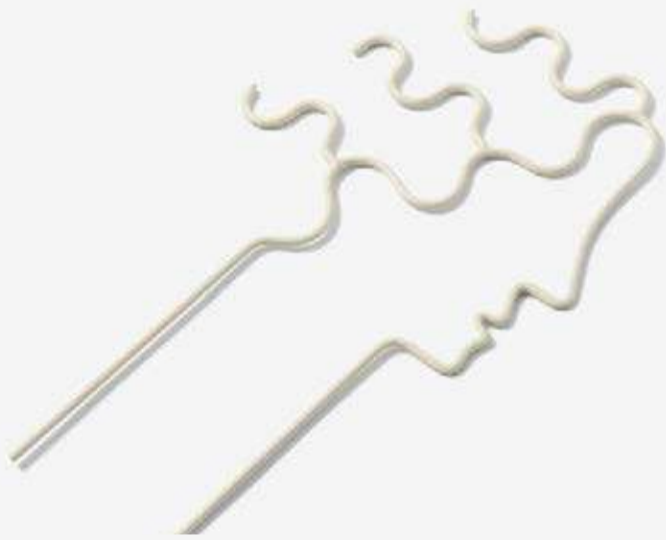

This is not your ordinary plant trellis. It's been said that its likeness to Greek legends will guide your foliage's fate—but that could just be a myth. Honest to Zeus, it will give your indoor and outdoor plants some extra support when they need something to lean on.

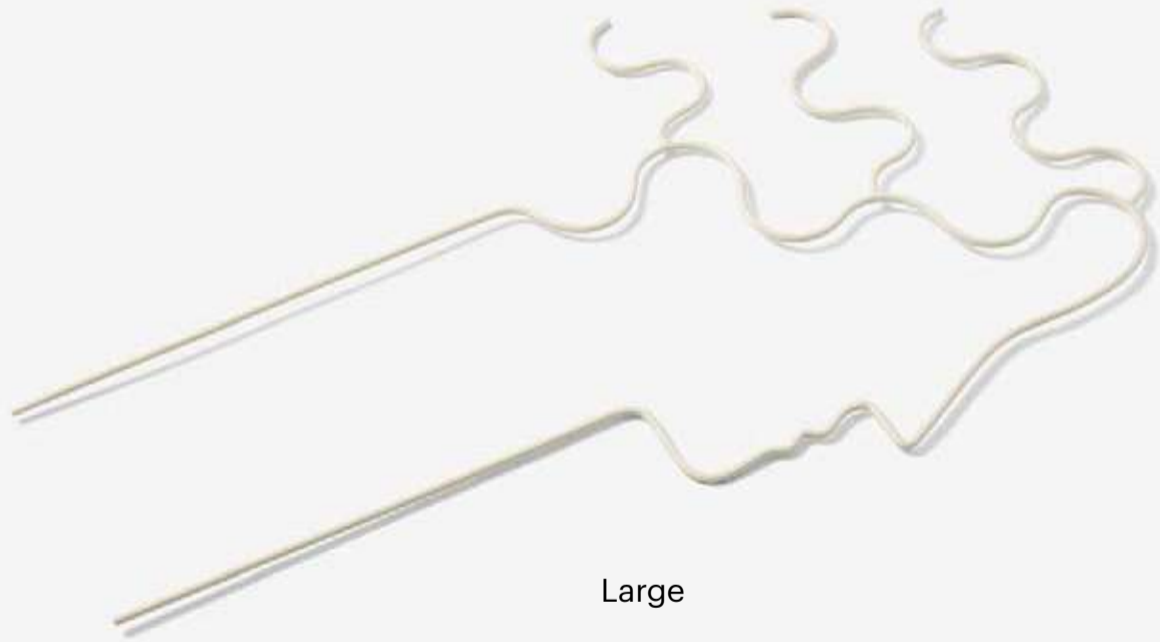

Mini

Large

Tango Watering Cans

designed by Henry Julier & Pete Oyler

The Tango Watering Can takes a thoughtful approach to a household essential. Its spout, handle, and inset lid work in tandem for functional ease and strike a graceful visual balance—sort of like a dance. You might be moved to take its hand(le) and step-two-three as you give your houseplants and garden the nourishment they need.

Bank in the Form of A Pig

designed by Harry Allen

Our Reality series by Harry Allen is inspired by the beauty of everyday objects. By casting natural forms, Allen thoughtfully reimagines objects and gives them new uses. Each object is chosen with care and often a comic sensibility. Here, a pig that died of natural causes becomes a bank. The bank holds up to \$10,000 in dollar bills.

ASSEMBLY DESK SET

designed by Alex Proba

A desk organizer designed to resemble Alex Proba's iconic patterns and murals. Each shape is an intentional celebration of color meant to bring life and energy to your workspace. Assemble them to create your desired desktop arrangement. Designed by Alex Proba for Areaware.

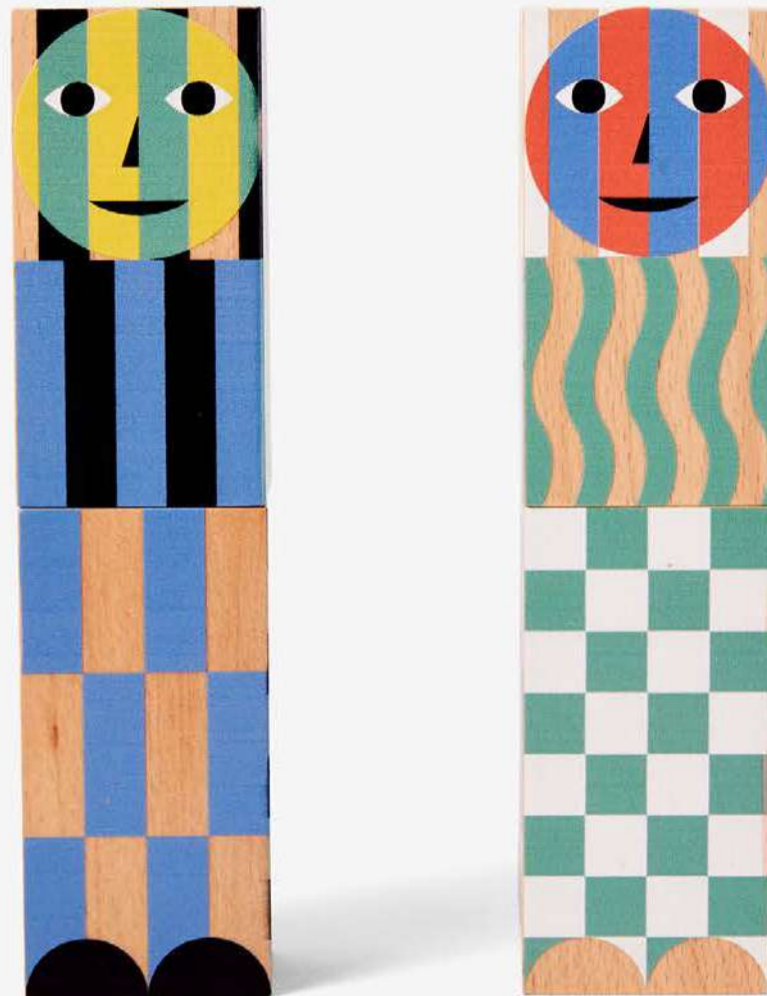

ASSEMBLY DESK VESSEL

designed by Alex Proba

A vessel for your desktop designed to resemble shapes found in Alex Proba's iconic patterns and murals. This vessel can hold anything from pens to flowers—whatever will bring life and energy to your workspace. Designed by Alex Proba for Areaware.

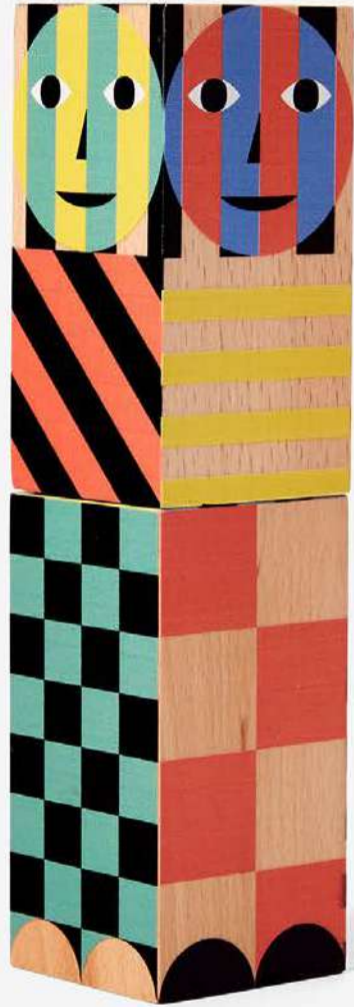

A R E A
W A R E

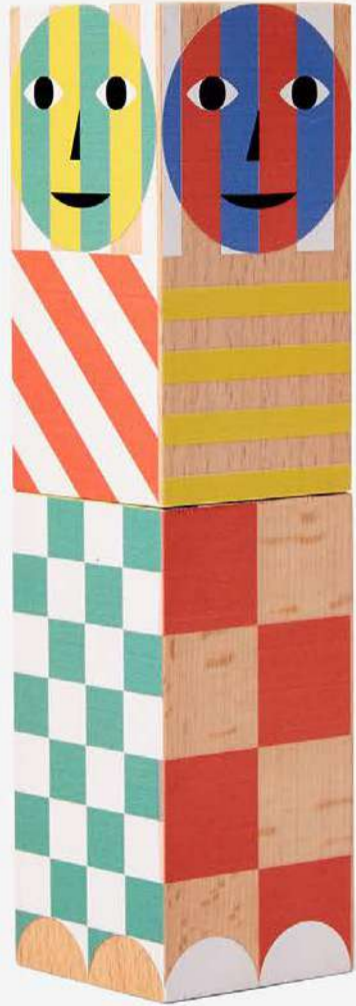

Everybody Grinders

designed by Dusen Dusen

Everybody has to eat. Everybody gets a little salty. Everybody likes to grind. Everybody is a chef in their own home. Everybody needs a little spice sometimes. The Everybody Grinder is there for you whenever you need some flavor on your plate and some color in the kitchen. Designed by Dusen Dusen for Areaware.

Everybody Kitchen Timer

designed by Dusen Dusen

Everybody gets distracted. Everybody burns a bake. Everybody wants a perfectly boiled egg. Everybody takes a break. Everybody needs a reminder sometimes. The Everybody Kitchen Timer will let you know when time is up. Designed by Dusen Dusen for Areaware.

GOOD DAY MOBILE

designed by Daniel + Emma

The Good Day Mobile is made with simple wooden shapes and paired with fun colors to create an object that will make your day a little more enjoyable. Hang it in any room where you might want to look up and feel good.

ORNAMENTS

designed by Pat Kim

Pat Kim's wooden ornaments are small, colorful forms adapted from larger scale designs found in his work. Keeping different arrangements of them around his studio, they often act as inspiration for new design ideas. This set of six ornaments is a fun reflection of Kim's broader studio practice, which focuses on material experimentation and traditional craft. Hang them here or there for festive decor, or as objects of celebration in your own space.

PLANT PEDESTAL

designed by Pete Oyler

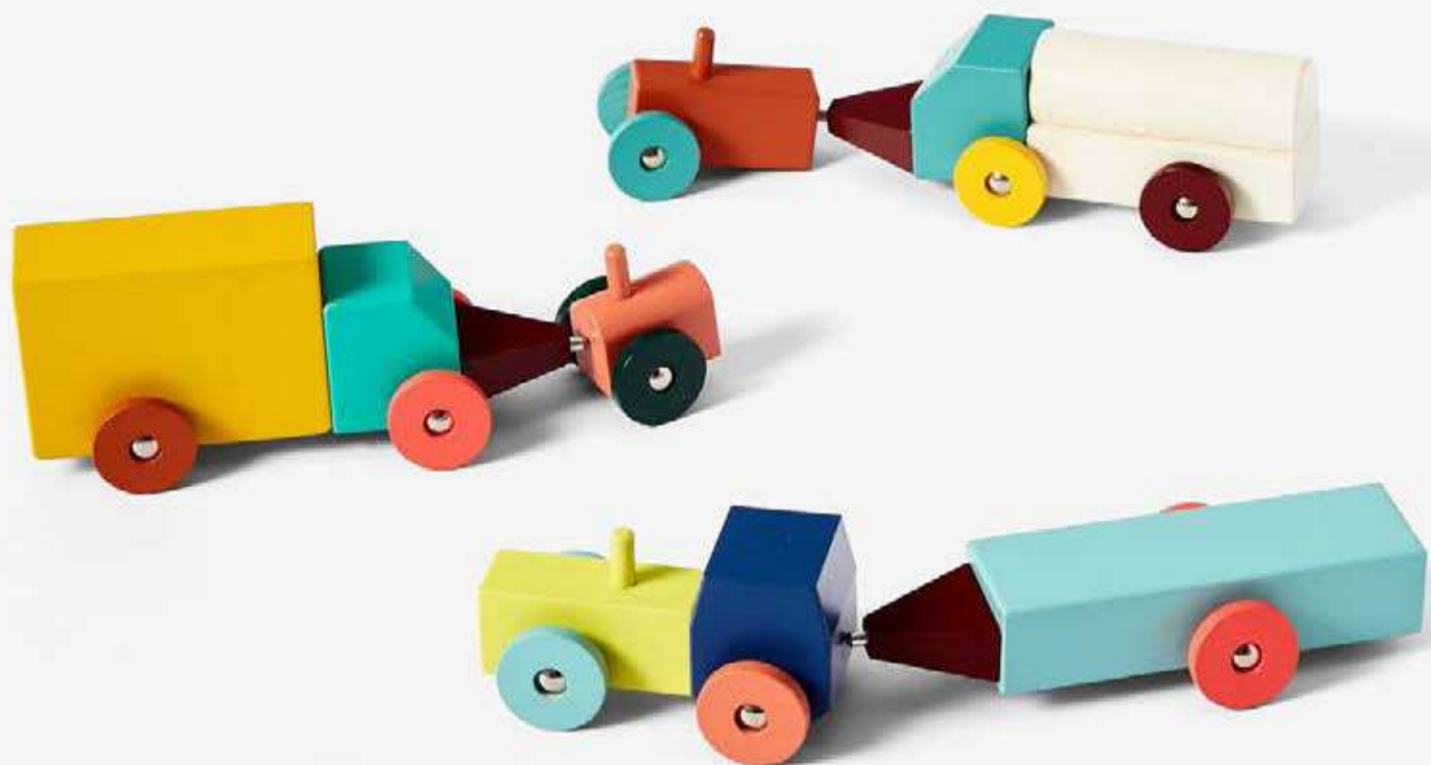

Our Plant Pedestals are made from three pieces of beech wood that fit together with seamless lap joinery. Their simplicity is a perfect way to show off arrangements both high and low. Use them to display plants, candles, seashells, flowers, hors d'oeuvres, and all your fine or humble ware.

PUZZLE THING – NY HEART

designed by Alex Lau, Michelle Gatton and Stephanie Yeh

Restaurants, and the diverse cultures that create them, are what make up the heart of New York. Lockdowns caused by the coronavirus pandemic severely impacted the restaurant industry. Many individuals lost their jobs, while others continued to work tirelessly, ensuring that the heart of NY kept beating. Moved by the impact this had on loved ones, friends Alex, Michelle, and Stephanie created this image to raise awareness around the lack of resources available to hospitality workers, and as a tribute to the industry.

HOVERS TRACTORS

designed by Floris Hovers

Hovers Tractors are crafted from contemporary shapes and painted in bright colors—a simple design that celebrates motor vehicles and the innovation, perseverance, and creativity they brought to the world. Join the tractor engines and wagons by their embedded magnetic connectors to create your own playful arrangements.

HOVERS TRAINS

designed by Floris Hovers

Hovers Trains are crafted from contemporary shapes and painted in bright colors —a simple design that celebrates locomotives and the innovation, perseverance, and creativity they brought to the world. Join the train engines and cars by their embedded magnetic connectors to create your own playful arrangements.

SEYMOUR CANDLE HOLDER

designed by Objects for Objects

The Seymour Candle Holder is a set of sculptural, interlocking shapes designed to snuggle together in a warm hug. Keep them close or arrange them on their own to light up the room. An extension of Object for Object's beloved Seymour lamp series, designed exclusively for Areaware.

SHAPE STAMPS

designed by Rilla Alexander

Shape Stamps invite you to see more than the shapes in front of you. Layer, overlap, and connect their various forms to create characters, landscapes, or still life masterpieces. Dab and press however you see fit to imagine endless designs and compositions.

Seymour Candle Holder, Orange/Pink
designed by Objects for Objects

STONE CATCHALL

designed by Kaja Dahl

A stone catchall made from rainbow sandstone for keeping any surface attractively in order. Place desk items, cosmetics, jewelry, or any personal accessories in its carved spaces—a small sculpture for everyday use. Designed by Kaja Dahl in collaboration with Areaware for the fourth edition of Norway x New York, a special project for Sight Unseen's Offsite show.

CHIAOZZA WALL HOOKS

designed by Chiaoza Wall Hooks

These Wall Hooks are like miniature, functional versions of Chiaoza's playful sculptures. Their bright colors and patterns will add a bit of cheer to wherever you hang your hat. Hardware included for easy installation.

DOODLE CRAYONS

designed by Nik Bentel

Doodle Crayons ask you to consider how you make art, rather than what you make. Move them this way and that, pull them along on their sides, or push them around flat. Doodle and scribble mindfully or mindlessly to create your own messy musings.

PUZZLE IN PUZZLE

featuring Street Errands by KangHee Kim

This is a puzzle within a puzzle, featuring photography by KangHee Kim. In this series of photos, Kim layers various photographs taken in New York City and around the U.S. to create new and imagined spaces, free from the restraints of reality. We've translated these images into a custom puzzle shape to mirror the image-within-an-image, creating two different puzzles that can be completed separately or together.
