SWORLD EARTH : BLUE

Our Department of Planetoid shrinking used the patented Nano-o-Tron on a neighboring planet to create this wonderful rheoscopic toy. Rheoscopic, what? Rheoscopic fluid is a special material that shows currents. Within this planet's shell you will see fluid dynamics visualized in spectacular ways.

SWORLD's shell is strong and resilient like you, so you can bounce it. Give it a twirl and watch a bazillion microscopic shimmering particles flow. After the turbulence the SWORLD will calm and the particles will settle.

THE COPERNICAN MISSION

Play for Joy

Our products have joy & whimsy that also happens to spark imagination and curiosity.

Yay, science!

We know that even a little science opens your inquisitiveness to learn more!

Play for All

At it's best, play is free from limits. So, we strive for items that don't box you in!

Multi-age appeal

inspires generations to play and learn together.

Gender-neutral design

empowers you to pursue interests independent of stereotypes and decide for yourself what is fun.

Nerdy awesome

Toys that scratch your inner geek & stretch what toys can and should be.

Play for Discovery

We see play as a way kids discover themselves and the world.

With our items you build a model, experiment with chemistry, forge new worlds with a bouncy ball, or brew your own soda.

Our toys & activities develop and exercise problem-solving, fine motor skills, organization, concentration, and so much more!

Play for Design

Our packaging has never been typical. Our products are at home on the shelves of the best toy, museum, and specialty gift stores. We proudly see our wares in the most beautiful & well-curated shops.

High-five to you, buyer!
Your store is fantastic!

PEGGY, AVI & DAUGHTERS

WHO ARE THESE COPERNICANS?

We've always & forever been a family owned & operated business!

Long, long ago two galactic travelers (Ellen & Harris) gathered & developed artifacts of science & nature to sell from their home world, Copernicus Toys. One day, as for all beings, they retired & downloaded the Copernican System to a new duo, Avi & Peggy.

This new duo & their two tiny daughters fearlessly took on the adventure.

Avi had been busy developing keen design at what earthlings call a job.

Peggy honed her education skills & sense of whimsy far & wide.

We carry on to this day making new toys while spending plenty of time with our now slightly larger daughters in our own little solar system.
