

## Bamboo charcoal is produced from the rapidly growing moso bamboo.

This type of bamboo can grow two feet or more in one day, reaching a height of 60 feet in two to three months.

Compared to regular charcoal, bamboo charcoal has ten times more surface area. It is this porous structure with countless tiny holes that ultimately give the resulting bamboo charcoal its revolutionary abilities as both a deodorizer and dehumidifier.

**Independent lab tests have shown that our bamboo charcoal absorb over 90% of formaldehyde and total volatile organic compound after an 8 hour period.**

Use bamboo charcoal as:

- a deodorizer in your fridge, room, gym bag, footwear, car, diaper pail, pet area, renovation area, etc.
- an air filter to absorb toxic chemical substances
- a dehumidifier for your drawers, closets, cabinets
- a moth deterrent, prevents mold buildup

Re-activate bamboo charcoal deodorizers and dehumidifiers by placing them outside under direct sunlight (2-3 hours per side) monthly. With proper care, products can last up to a year.

## Bamboo charcoal is 100% natural.

Remarkably, at the end of its lifespan, the bamboo charcoal pieces from the product can be mixed with gardening soil. Charcoal pieces deter pests and absorb excessive moisture in the soil (ideal for delicate plants such as orchid). For another eco-friendly idea, incorporate the bamboo charcoal pieces into a clever home decor accessory.

**EB2916**  
**Fridge + Freezer Deodorizer**  
(150 g)

- absorbs fridge odor
- absorbs ethylene gas given by fruits and vegetables, your fruits and vegetables will stay fresh longer

### Review:

"We have been using this product for about two years now and have not ever found anything superior. We love the spicy Korean Kim Chi and always have a large container in our fridge. Before using this product we could find nothing that would absorb the strong smell now we don't even know it's in the fridge."

**EB2937**  
**Bin Deodorizer + Dehumidifier**  
(25 g)

- ideal for garbage bin, diaper pail, compost pail, rice bin

### Review:

"It really works!!!! Put two in our pail and it is totally smell free!!!!"

"I put one in my Diaper Genie because I wanted to sell it, and let's face it, it stank. (Seriously - it was gross) I left it in there for 24 hours, and believe it or not it the smell was completely gone. In fact the people who bought it asked me if I'd ever used it."

**EB2914**  
**Shoe Deodorizer**  
(50 g x 2)

- keeps shoes dry and odor-free

### Review:

"I play high school volleyball, track & field and soccer. I've always had a problem with my shoes smelling bad, especially my athletic shoes. This resulted in all my athletic shoes having to be kept on the deck outside our house. If I had to put my shoes in my sports bag, all of my clothes also had the awful stench of my shoes. My mother brought home the Ever Bamboo Shoe Deodorizers hoping they would help. After using them for only 2 days, my shoes were in the house again and no one has even noticed them. My bag and clothes no longer have the terrible stench of my shoes. I just put the deodorizers in my shoes after every event and don't have to worry about being noticed for anything other than being an athlete."

**EB1951**  
**Bamboo Charcoal Face + Body Bar**  
(200 g)

- Deep Cleansing
- Clears pores

### Review:

"I recently bought this soap and the first thing I noticed when I opened the package was the wonderful smell. It's got a very pleasant and natural scent that I love. The black color of the soap is awesome and I love the fact that you can use it on your face and body. I have had it about a week and already notice a nice glow to my skin. Another thing I like about the soap is it really rinses off clean. There's no residue left at all and it makes your skin feel really smooth."
