54° CELSIUS

It's been about 150 years since candles were vital for light. Now their role is more refined. Their combination of warm low light, scent, and slow transformation make them the solution for communicating the mood. Whether it's intimacy, festivity, enchantment or elegance - candles say it like nothing else can.

54 Celsius strives to enhance the conversation by bringing you candles that are so beautiful and unique that they can easily transition from a supporting role to the star of the show. We both design our own collections and we share the work of some very talented friends by distributing their candles in the US and Europe.

TWIST

By bending and twisting candles a new typology appears combining form, function and fun.

TALLOW

54°
CELSIUS

A candle needs the candlestick, which requires a candle in return. The Tallow candle unites these two objects through melding them into an inseparable union. Bathe in its light for eight long hours or accessorize with it for all eternity. The playful design is entirely in wax and available in a wide range of colours. Snuff before bedtime.

Designed by Ontwerpdoo. Handmade in Holland.

CANDLE CARE SET

54°
CELSIUS

This Candle Care Set will help you to get the most of your candles.

To help prevent smoking and soot use the wick trimmer to keep the wick at 1/4" each time before lighting a candle.

Use the snuffer to extinguish a candle. This will prevent hot wax from splashing and minimize smoke.

Pack contains: 1 candle snuffer, 1 candle wick trimmer.

Made from powder coated steel.
Dimensions: 6.75" long.
